Commissioner of Patents

See attached sheet.

The reply filed on 3-18-2002 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant recognizes that the office action ^{dated 2-14-2002} requires an election, however, the examiner could not find an election in the response dated 3-18-2002, paper # 5. The examiner only sees what applicant terms "arguments" to the election of species requirement. Note that the office action dated 2-14-2002 states: "Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143.)". Therefore, applicant's response is not fully responsive. Furthermore, what Applicant term as arguments does not present a positive statement that "All species are obvious variants". Applicant's "arguments" describes what the various Figures contain. This is not an admission that all species are obvious variants. As stated in the previous office action evidence must be submitted or applicant must admit on the record that the species are not patentably distinct. Because applicant has attempted to argue the election of species requirement this is seen as a bona fide attempt. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
